Arkadium

Junior Software Engineer | Lisbon, Portugal (Remote) | October 2023 - December 2024

ABOUT THE COMPANY

Arkadium is a leading developer and publisher of casual, browser-based games. Known for creating engaging puzzle and card games, Arkadium partners with major media companies including USA Today, Washington Post, and MSN to deliver high-quality gaming experiences that entertain and challenge players worldwide.

KEY CONTRIBUTIONS

- Worked in the LiveOps team maintaining a portfolio of casual games played by 18 million users monthly across platforms including The Washington Post, AARP, MSN, and USA Today
- Collaborated directly with the Microsoft Games team in developing Microsoft Mahjong 3D and Gravity Blocks
- Participated in the Arkadium for Developers initiative by helping 2nd/3rd party studios and developers integrate their games into the Arkadium platform

KEY PROJECTS

- **Gravity Blocks by Microsoft**
- **Microsoft Mahjong 3D**
